FROM: Artem Atanasov, Chief Sales Officer, Centravis

Our dear clients, partners, and friends,

Ukraine keeps working on winning. The situation at the front remains difficult. The enemy regularly attacks important infrastructure facilities. Despite this, the power engineers are doing their best to provide Ukrainians with electricity. With the coming of winter, we face new challenges, new tasks and we are fulfilling them. Authorities take care of providing new financial support to Ukraine. Volunteers facilitate fundraising for generators for hospitals and army.

Under current conditions, Centravis production continues to work under the limited energy supply mode as our government asked us to reduce the load on Ukrainian energy system. The situation is gradually restoring. As we have announced last week, our pressing line is under planned major overhaul. We plan to finish it at the next week.

Our logistics team constantly controls the safest ways to deliver the finished products. Our Sales offices worldwide in Essen, Milan, Krakow, Lugano, Houston, and Dubai are ready to your requests. The Financial and Administrative Departments, Customer support are waiting to your calls.

Centravis CEO Yuriy Atanasov and Production Director Andriy Krasjuk stay in Ukraine and keep working in Nikopol.

Also, we are happy to inform you, that our logistics team reached to agreement with Maersk, which carries out shipments by sea, to restore container loads directly from our production in Nikopol. This gives us the opportunity to minimize transit time and indicates that we are slowly returning to the pre-war shipment regime.

Thank you for choosing our products.

Sincerely,

Artem Atanasov [aatanasov@centravis.com](mailto:aatanasov@centravis.com)
