FROM: Artem Atanasov, Chief Sales Officer, Centravis

Our dear clients, partners and friends,

This week, Ukraine received high-profile visits from NATO Secretary General Jens Stoltenberg, Mayor of Paris En Hidalgo, and President of the Committee of the Regions of the European Union Vasco Cordeira. Their visit signals a growing level of support for Ukraine in terms of both the supply of weapons and post-war reconstruction efforts.

The Ukrainian government and people are heartened by this support and see it as a positive step towards greater stability and security in the region.

Centravis production continues to operate at full capacity. Our Hot and Cold Shops in Nikopol and our production site in Uzhgorod are functioning seamlessly, with all equipment in good working order.

Our logistics team is working tirelessly to ensure the safe and efficient delivery of finished products, while our sales offices worldwide remain open and available to assist with any inquiries or requests. Additionally, our Financial and Administrative Departments, as well as our Customer Support teams, are fully operational.

Our CEO, Yuriy Atanasov, and Production Director, Andriy Krasjuk, remain in Ukraine and continue to work from the Nikopol location.

This week I had an opportunity to visit our clients in Italy. During my visit, I observed a growing level of competition in the European market, and the Italian market in particular.

Despite this increased competition, I was pleased to see that our customers continue to show loyalty to our products. As a team, we are committed to finding the best solutions for both ourselves and our clients, with the aim of achieving mutual benefits.

Thank you for supporting us!

Sincerely,
Artem Atanasov aatanasov@centravis.com
