RE: Centravis production

Our dear clients, partners, and friends,

This week russians continue shelling of energy infrastructure in Ukraine. Nevertheless, the situation in Nikopol remains stable.

Ukraine's government initiated the program of optimizing the national energy consumption.

The volume of production outputs in Centravis will remain unchanged, but now we will produce more at night and less during the day to lower the load on the energy system.

Centravis production continues to work. The Hot Shop and the Cold Shop continue working in 3 shifts. All equipment is running. Production is provided with billets and all necessary materials.

Our Logistics team is actively working and constantly looking for the best and safe ways to deliver the finished products. Our Sales offices worldwide in Essen, Milan, Krakow, Lugano, Houston, and Dubai are open, our Financial and Administrative Departments, Customer support are ready for your calls and messages.

Centravis CEO Yuriy Atanasov and Production Director Andriy Krasjuk stay in Ukraine and keep working in Nikopol.

Thank you for being with us and supporting us.

Sincerely,

Artem Atanasov
