FROM: Artem Atanasov, Chief Sales Officer, Centravvis

Our dear clients, partners and friends,

The battle for peace in Ukraine continues. This week passed without large-scale shelling, however, the occupiers continue to shell the East and South of Ukraine with heavy artillery. The situation with energy supply remains tense, but its gradual recovery continues. A significant event took place this week - the meeting of Ukrainian president with the president of the USA. As a result of this meeting, Ukraine secured even more diplomatic and financial support from the United States.

After overhaul of our press line Centravvis production works effectively. This week we started our production at full speed. Our key equipment is provided with electricity in full volume, the Hot Shop and the Cold Shop are working. All equipment is running, production is provided with all necessary materials.

Logistics team constantly controls the safest ways to deliver the finished products. Our Sales offices worldwide in Essen, Milan, Krakow, Lugano, Houston, and Dubai are open and always ready to your requests. The Financial and Administrative Departments, Customer support are waiting to your calls and ready to answer on all your questions. We are united and ready for any task.

We are ending this year with good results. Centravvis produced more than 10.000 tons of seamless pipes over the course of 11 months. We paid more than 230 million UAH taxes for 10 months of 2022. During this year we participated in 3 international exhibitions and we were proud to be among world's leaders. We achieved that thanks to support of our clients, our team and partners.

Centravvis CEO Yuriy Atanasov and Production Director Andriy Krasjuk stay in Ukraine and keep working in Nikopol. I joined them this week in Nikopol where I checked production of orders for our clients.

Sincerely,
