FROM: Artem Atanasov, Chief Sales Officer, Centravis

Dear Clients and Partners,

Centravis continues to operate at full capacity, ensuring stable and efficient production across all manufacturing facilities. With secure access to electricity, water, and critical infrastructure, our processes remain uninterrupted, allowing us to meet every commitment with accuracy and on-time delivery. Operational resilience, discipline, and reliability remain at the core of our daily performance.

In line with our commitment to openness and long-term partnership, we are always prepared to share the latest Bureau Veritas audit results, provide detailed insight into our production standards, or arrange remote audits upon request. We believe that sustainable cooperation is built on transparency, accountability, and consistently demonstrated excellence.

We are also pleased to share the January edition of our corporate update, "[January 2026: Centravis Seamless Continuity](#)." This issue outlines key strategic developments shaping our next phase of growth.

Thank you for your continued trust and partnership. We look forward to building the next chapter of success together.

Best regards,  
Artem Atanasov
