

CENTRAVIS PRODUCTION UKRAINE PJSC
56 Trubnikov ave, Dnipropetrovsk rgn., Nikopol, 53201, Ukraine

№ _____ dd 07.11.2025

FROM: Artem Atanasov, Chief Sales Officer, Centravis

Dear Clients and Partners,

I am pleased to confirm that Centravis continues to operate smoothly and reliably across all production sites. With uninterrupted access to energy, water, and critical infrastructure, our manufacturing processes remain stable and efficient — ensuring that every order is executed with precision and delivered on time. Operational excellence and reliability continue to guide everything we do.

We would also like to extend our sincere gratitude to everyone who visited the Centravis stand at **ADIPEC Exhibition & Conference 2025**. It was a pleasure to meet with so many clients, partners, and new acquaintances who share our passion for innovation, sustainability, and technological progress.

This year's exhibition brought together the world's energy leaders, and we were proud to contribute to the dialogue on the future of advanced materials. Our discussions confirmed several key trends shaping the industry today:

- A growing demand for stainless steel tubes in hydrogen and green energy applications, stronger than ever before.
- An increasing focus on AI and digital transformation within industrial processes.
- A surge of interest in high-performance materials designed for extreme and mission-critical environments.

One of the key highlights of the event was our [official presentation of NIKOPOLIUM®](#), Centravis's next-generation duplex and super duplex stainless steel.

Developed through advanced grain boundary design, NIKOPOLIUM delivers exceptional mechanical strength, superior impact toughness, and outstanding corrosion resistance — performing flawlessly from cryogenic LNG conditions to 350 °C process temperatures.

We thank all who joined our presentation, engaged in discussions, and shared their perspectives. Your interest and enthusiasm continue to inspire us to innovate and push boundaries.

Thank you for being part of this journey — and for trusting CentraVis as your reliable partner in seamless stainless steel solutions.

Best regards,
Artem Atanasov
