

CENTRAVIS PRODUCTION UKRAINE PJSC  
56 Trubnikov ave, Dnipropetrovsk rgn., Nikopol, 53201, Ukraine

Nº \_\_\_\_\_ dd 26.09.2025

FROM: Artem Atanasov, Chief Sales Officer, Centravis

Dear Clients and Partners,

I am pleased to confirm that Centravis remains fully operational across all production facilities. With reliable access to energy, water, and essential infrastructure, our manufacturing processes continue without interruption — ensuring every order is produced with precision and delivered on time. Operational stability and consistent performance remain at the core of our work.

As part of our commitment to transparency and long-term cooperation, we are always ready to provide the latest Bureau Veritas audit results, share direct insights into our production, or arrange remote audits tailored to your needs. We believe that strong and lasting partnerships are built on trust, openness, and proven reliability.

In addition to maintaining excellence in our daily operations, we are also preparing to connect with the global stainless steel community at key industry events. This year, Centravis will proudly showcase its latest innovations at two major international exhibitions:

- [Stainless Steel World 2025 – Maastricht, 18–20 November](#)  
Our Product Manager, **Polina Kazarina**, will present *“Lightweight Stainless Steel Tubes for High-Pressure Fuel Systems”*, featuring pioneering solutions with Balev Steel for demanding applications.
- [ADIPEC 2025 – Abu Dhabi, 3–6 November](#)  
Our Head of R&D, **Andrew Balev**, will deliver a keynote *“Advanced Duplex Steel for Extreme Environments”*, introducing our next-generation material innovation.

We look forward to meeting you at these global industry events and sharing how Centravis continues to push the boundaries of stainless steel engineering.

Best regards,  
Artem Atanasov
