FROM: Artem Atanasov, Chief Sales Officer, Centravis

Dear Clients and Partners,

Centravis continues to operate at full capacity, delivering stable and efficient production across all our facilities. With secure access to electricity, water, and essential infrastructure, our processes remain uninterrupted, enabling us to fulfill every commitment with precision and on-time performance. Operational resilience, disciplined execution, and reliability remain the foundation of our daily work.

In line with our commitment to transparency and long-term partnership, we are ready to provide the latest Bureau Veritas audit results, share detailed insights into our manufacturing standards, or arrange remote audits upon request. We believe that strong, sustainable cooperation is built on openness, accountability, and consistently proven performance.

We would also like to extend our sincere thanks to everyone who visited our stand at MTI Symposium 2026. It was a truly intensive and productive event, filled with meaningful discussions, valuable meetings, and new opportunities for collaboration. We appreciate your time, engagement, and trust.

**As a reminder, we will be participating in the following upcoming exhibitions:**

- EGYPS 2026 – Stand 2I79  
March 30 – April 1, 2026
- Tube 2026 – Stand 3B03  
April 13 – April 17, 2026

We look forward to welcoming you at our stands and continuing our conversations in person.

As part of our **CBAM compliance strategy** for the 2026 financial year, Centravis has implemented a structured cost forecasting model developed in partnership with KPMG, providing clients with clear visibility on embedded emissions and EU ETS pricing, supporting accurate budget planning, and ensuring stable, disruption-free supply chains under the evolving EU regulatory framework. We will regularly update and publish bulletin through our official channels. For questions or clarifications, please contact the Centravis sales team.
