RE: Situation in Ukraine

Our dear clients, partners, and friends,

Ukraine has been fighting for its freedom for 65 days. The Russian Federation continues its full-scale armed aggression against our country and launches missile and bomb strikes on military and civilian infrastructure. Fortunately, the situation in Nikopol is calm. There are no shelling and other danger to life in Nikopol and the region.

The Hot Shop and the Cold Shop activities are according to the billet volume available. Yesterday we resumed the work of the extrusion line in Hot Shop and started the production of pipes for the automotive industry.

Please, be advised that as of May 1 we will change the rule for Energy Surcharge (ES) application for all new orders: when booking orders, we will use the ES of the booking month, and when delivering orders, we will use the ES of the billing month. All bookings received before May will be billed as per the previous rule - ES of the month of booking. You can find up-to-date information here: <https://www.centravis.com/en/surcharge/>.
