FROM: Artem Atanasov, Chief Sales Officer, Centravis

Dear Clients and Partners,

Centravis continues to operate at full capacity, maintaining stable and efficient production across all our manufacturing sites. With reliable access to electricity, water, and essential infrastructure, our operations remain uninterrupted, enabling us to deliver every order with precision and within agreed timelines. Consistency, operational discipline, and reliability define how we work every day.

As part of our commitment to transparency and long-term collaboration, we are ready to share the latest Bureau Veritas audit results, provide detailed insights into our production standards, or arrange remote audits upon request. We are confident that strong partnerships are built on openness, accountability, and consistently proven performance.

**Regulatory update:** We are closely monitoring the ongoing EU discussions regarding potential tariff-rate quotas for steel products starting from 1 July 2026. Should you have any questions related to upcoming deliveries or planning for Q3, please contact your local Market Head. We will provide a clear, case-specific response along with a detailed delivery plan.

Thank you for your continued trust and partnership. We look forward to advancing our cooperation and achieving new milestones together.

Best regards,  
Artem Atanasov
