56 Trubnikov ave, Dnipropetrovsk rgn., Nikopol, 53201, Ukraine

№_____ dd 13.11.2026

FROM: Artem Atanasov, Chief Sales Officer, Centravis

Dear Clients and Partners,

We are pleased to share our latest operational update and reaffirm Centravis continued commitment to reliable manufacturing, consistent product quality, and timely deliveries to customers worldwide.

Our production facilities continue to operate steadily and in line with established schedules. With procurement, supply chain management, and logistics processes functioning effectively, we remain fully focused on maintaining production continuity, meeting contractual obligations, and fulfilling customer orders within agreed timelines.

This week also marked the successful conclusion of our participation in Stainless Steel World Americas 2026 in Houston. The event provided an excellent opportunity to engage with industry professionals, exchange technical insights, and highlight our latest developments in advanced stainless steel solutions.

A key highlight was the presentation “Duplex Reimagined: NIKOPOLIUM® NP 2205 and NP 2507” on November 10, showcasing the potential of our duplex and superduplex stainless steel grades for demanding industrial applications. We sincerely thank everyone who attended the presentation, visited our team, and contributed to the valuable discussions throughout the event.

Thank you for your continued confidence in Centravis. We look forward to strengthening our cooperation and creating new opportunities together.

Best regards,
Artem Atanasov
