

CENTRAVIS PRODUCTION UKRAINE PJSC
56 Trubnikov ave, Dnipropetrovsk rgn., Nikopol, 53201, Ukraine

№ _____ dd 12.04.2024

FROM: Artem Atanasov, Chief Sales Officer, Centravis

Dear Clients and Partners,

We would like to provide an update on the current situation at Centravis.

On the morning of April 11th, the russian military launched a massive missile and drone attack targeting power generation facilities and transmission systems in the Kharkiv, Zaporizhzhia, Lviv, and Kyiv regions. Energy engineers are actively working to mitigate the consequences.

We are pleased to inform you that Centravis' production facilities remain secure and are operating normally, with uninterrupted energy and water supplies. Our production continues to deliver volumes according to plan. As one of Ukraine's major exporters, Centravis receives government support, including a dedicated reserve power line, to ensure a consistent electricity supply.

Additionally, this week Bureau Veritas conducted a regular audit of our facilities and confirmed that the production and shipment of products to customers are proceeding as usual, with no detected factors that could impact operations.

III. CONCLUSIONS

Based on the results of above mentioned audit:

- at the time and place of audit, production situation in the CENTRAVIS PRODUCTION UKRAINE PJSC is stable, the production and shipment of products to customers is provided in normal mode.
- at the time and place of audit, factors that can greatly affect the operation of the enterprise were not detected.
