№ 392/03 dd 25.07.2022

FROM: Artem Atanasov, Chief Sales Officer, Centravis

Our dear clients, partners, and friends,

As we wrote earlier, last week we suspended production due to the tense situation in Nikopol. The shelling of the city of Nikopol, fortunately, stopped. Centravis employees were not hurt. The production equipment was not damaged.

The company's team decided to resume production today. Production works in one shift. Our sales managers continue to take orders. We comply with all safety measures.

I am at your disposal, with all your requests for information or inquiries.

Sincerely,

Artem Atanasov
