Our dear clients, partners, and friends,

Ukraine has overcome the hardest winter in its history. The diplomatic front, which supports our country, is growing. At the same time, the enemy continues offensive actions, but the Armed forces of Ukraine confidently repel them and accumulate resources for further counterstrike.

Centravis production is now running at full capacity. All equipment is running, the Hot and the Cold Shops are working.

Our logistics team constantly controls the safest ways to deliver the finished products. Our Sales offices worldwide in Essen, Milan, Krakow, Lugano, Houston and Dubai are ready to your requests. The Financial and Administrative Departments, Customer support are also ready to help.

Centravis CEO Yuriy Atanasov and Production Director Andriy Krasjuk stay in Ukraine.

A new Centravis production site has been officially opened in Uzhgorod on February, 28th. On this occasion we had a special event. We invited colleagues from Nikopol, managers from Italy, Germany, Poland, USA and UAE, local and regional authorities. Also all TOP managers of the company participated in the grand opening ceremony. This production site is just a part of our big team as the main capacities of Centravis remain in the Dnipropetrovsk region. We are very happy that our production is developing and Ukrainian seamless stainless tubes and pipes are in demand all over the world.

Thank you for choosing Ukrainian products! Glory to Ukraine!
